

ROBUST REPORTS

CalliPay's robust reports gives you full control of your information and information sharing policy.

Most reports come standard with grouping features. But CalliPay's comprehensive reports offer enhanced sorting and custom grouping mechanisms to massage your productivity information and measure your performance.

Additionally, CalliPay tracks and partitions your information via multiple report formats—giving you the option to share or restrict the information across users, groups, departments, or divisions.

We recognize businesses have unique ways of measuring performance. It is our goal to give you the tools to use your information in ways that benefit you the most.

Features and Benefits:

- Corporate users can get productivity overview or segment information by divisions or departments to gage individual performance.
- Control information access - share information within multiple divisions, or restrict access to key users only.
- Full administrative features at the local level—give administrative control to group administrators at their worksite.
- Sort reports by corporate overview, departments, groups, users or by date ranges and other custom groupings
- Full transaction detail - CalliPay reports provide drill downs to payer detail.
- Easy report export features to update your systems.
